

Teaching Ethics in Computer Science

Noelle Brown, advised by Eliane Wiese
noelle.brown@utah.edu
noelleb.com

How can we teach students about ethics in CS in a way that deepens technical rigor?

What algorithm would you use to program the car to find the best path to the goal?

Methods:

- Qualitative data analysis
- Design studies
- Interviews/Think-alouds
- Pretest-instruction-posttest studies
